## **City of Needles Severe Weather Incident, San Bernardino County (Updated)**

### **Situation**

On Tuesday, August 12, 2014 at approximately 1630 hours a severe thunderstorm settled over the City of Needles causing flooding and wind damage. The City of Needles reported a minimum of 50 downed power lines, damage to roofs, and multiple downed trees. A determination has yet to be made if this incident may be linked to the August Severe Weather Incident.

- A local proclamation was received August 14, 2014 from the City of Needles for heavy rain, flooding and adverse weather conditions. The Proclamation is requesting a Governor's Proclamation including CDAA, a Small Business Administration declaration and any State or Federal funding. Initial damage estimates continue.

### **Road Closures**

#### **County Road Closures**

- Pahaska Trail from Rio Vista Drive to North to Lakota Court in the area of Big River, no anticipated time for reopening.
- Five Mile Station Road from I-40 west to Highway 95 in the area of Needles, no anticipated time for reopening.

#### **State Highway Closures**

# SITUATION SUMMARY

## **Potential Japanese Tsunami Marine Debris (JTMD), Daly City, San Mateo County (Updated)**

A potential Japanese Tsunami Marine Debris (JTMD) was discovered on Mussel Rock Beach, in Daily City, San Mateo County. The boat is on Federal Land in a National Recreation Area. Boat is still on the beach. At high tide, the water will reach the boat. Boat is secured. **Salvage Strategy**

**Access:** San Mateo County worked with Daly City Police and Fire departments to obtain access for appropriate parties to do the salvaging operation which is lead by GGNRA.

**Next steps:** Estimates obtained from contractors and salvage operations will begin today and through the weekend if necessary. Coastal Region will continue to monitor the situation.

## **Port of Oakland Protest (No Change)**

Oakland Police Department (OPD) is expecting 500-1000 demonstrators on Saturday, August 16, 2014 to protest the ships partly owned by the government of Israel. Although no law mutual aid has been requested, the Port has reached out to Alameda County Sheriffs Office (ACSO) for Law Enforcement support. The distinction is that this is a planned event and therefore not technically mutual aid. OPD is planning on having their Department Operations Center (DOC) open on Saturday. The protest is planned to occur, even if the ships cancel their arrival to the Port. Cal OES Law Enforcement Branch and the Cal OES Ports and Harbors representative continue to monitor the situation and coordinate information.

# **SITUATION SUMMARY**

## **Hurricane-Tropical Storm, Hawaii, Pacific Ocean (Updated)**

### **Current Situation:**

Tropical Cyclones Iselle and Julio have dissipated; however, there are two new storms heading towards Hawaii. EMAC Team members are currently conducting advanced planning and working to procure tarps from FEMA (there are 1,000+ on the island). The EMAC Team is reaching out to EMAC partners; there is a possibility that an IMT Team will be brought in to assist with staffing in the EOC. Nothing has been requested at this time.

### **Activations:**

Hawaii County: EOC activated; 1 shelter open

State: State EOC is Partially Activated

### **EMAC Deployment**

**2014-SOC-4699** Deployment of A Team Type I Staff

- (2) OES staff and (1) CNG departed California 8/8/2014, expected to return, 08/22/14.

### **Significant Weather**

Nothing significant to report.

### **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought
- City of Portola, Plumas County has submitted a proclamation due to drought requesting State Water Board relief for those post 1914 junior water rights holders currently subject to surface water diversion curtailments.

# WEATHER

## **WEATHER SYNOPSIS BY REGION:**

\*\*\*NOTE\*\*\* Problems with NOAA's regional server in Salt Lake City have resulted in several products on the web site either being unavailable or not updating. Western Region personnel are aware of the problem, but at this time there is no estimate for a return to service. A workaround is in place to ensure products produced are not affected.

## **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

### **Eureka Weather:**

Weak high pressure over the North Coast will bring northwest California seasonal temperatures and dry conditions through the weekend. Broad trough sets up over the West Coast by early next week. Coastal locations can expect low clouds each night and morning.

### **San Francisco Weather:**

Dry conditions along with slightly cooler-than-normal temperatures are expected through next week.

## **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

### **Sacramento Weather:**

Dry and mild weather expected into early next week with temperatures near to slightly below normal. A low off the Northern California coast Sunday into early next week may bring some cumulus development over the northern mountains.

### **Hanford Weather:**

An onshore flow will prevail through today with dry weather and near to slightly below normal temperatures. The weekend will trend a bit warmer as high pressure into California. A low pressure system will bring a few degrees cooling by the middle of next week.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

A slight warming trend will occur through the weekend as high pressure to the east builds west. High pressure should weaken some early week to bring a return of seasonal conditions across the area. A cooling trend could develop for mid-to-late next week.

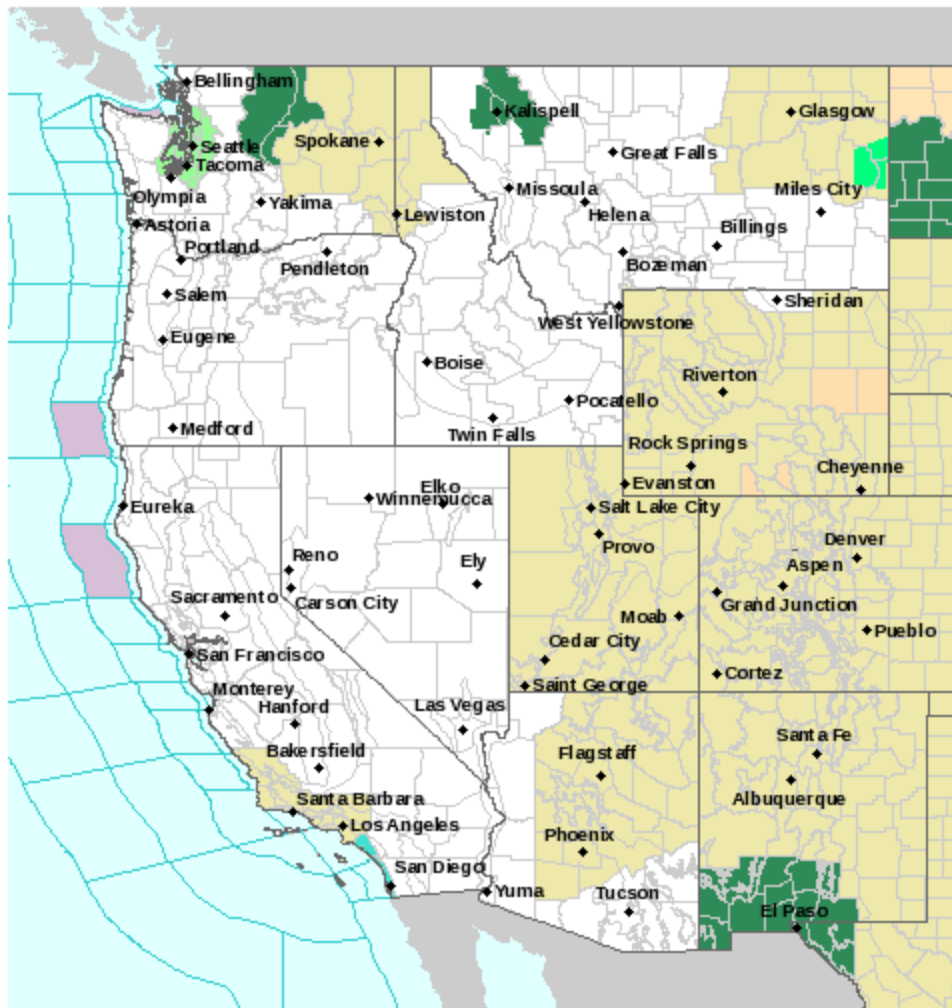

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

High pressure aloft will bring fair weather through early next week with temperatures near normal. Lower pressure will develop over California Tuesday through Thursday bringing cooler weather and more extensive low clouds nights and mornings.

#### **Southeast California Weather:**

Drier air pushing in from the west will limit thunderstorm chances today. Dry and warmer weather will occur through the weekend and perhaps into early next week with temperatures several degrees above normal.

### Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- Current Reservoir Levels continue to decline. Levels as of August 13<sup>th</sup> : Don Pedro 42%; Exchequer 18%; Folsom Lake 40%; Lake Oroville 33%; Millerton Lake 48%; New Melones 25%; Pine Flat 12%; San Luis 20%; Lake Shasta 32%; Trinity Lake 32%; Pyramid Lake 94%; and Castaic Lake 45%.

- Emergency Drinking Water Procurement and Distribution Planning Guidance (rev. May 2014)

Significant changes have occurred to the structure of California's state government organization. Rapid advances in systems, science, and technology have helped emergency managers improve coordination, forecasting, and situational awareness. Because of these changes, the *Multi-Agency Emergency Response Procedures for Potable Water Procurement & Distribution* document has been replaced by the *Emergency Drinking Water Procurement and Distribution Planning Guidance*. The intent of this guidance document is to clarify the roles and responsibilities of the stakeholders involved in locating, procuring, and delivery of emergency drinking water<sup>1</sup> to populations in California. Consequently creating a framework for agencies and organizations to work together to enhance preparedness.

- State Board Mandatory Conservation Regulations Now in Effect: The state's first-ever emergency regulations mandating urban water conservation became effective will be in effect until April 25, 2015.

- The 2014 Governor Drought Task Force continues to meet regularly to take actions that conserve water and coordinate state response to the drought.

- Cal OES continues to gather drought-related costs from state agencies and local governments.
